Conferences/organizational activities undertaken by the Chairholder

Virginia Maquieira (Chairholder), participated and promoted the G-NET Equality Training Network. Latin America and Europe. A network of universities to integrate gender equality in teaching, research and the design and evaluation of gender policies. Articulated around the European research project "Equality training Network: EU contributions to gender mainstreaming and citizenship".

The G-Net project received the Social Impact of Research Award from the Social Council of the URV (2018). Based on the research in Gender Studies and European Integration, the project developed teaching materials on gender policies for various educational levels including the university, the political decision-making areas, technicians responsible for design and evaluation of policies with the goal of implementing effective equality for their organizations. It was highlighted that he has trained in person and virtually more than 5,200 people.
